CAREER OBJECTIVE

A motivated learner pursuing Master's in IT, eager to apply academic knowledge and hands-on project experience in Full-Stack Development. With a quick learning ability and responsible attitude, I seek opportunities to develop my skills, contribute to innovative projects and grow in a dynamic IT environment.

SKILLS

Technical Skills

Front-End : HTML, CSS, Bootstrap
Back-end : Django, Python
Database: MySQL
Design : Canva, Figma
Version Control & Deployment : Git, Github

PROJECTS

HealthyMeApplication | Python, MongoDB   github.com/aditilakhan/HealthyMeApplication.git

- Developed a desktop-based health tracking system with task reminders.
- Implemented a secure login system and an intuitive UI for better user experience.

Sweetscape | Html, Css   github.com/aditilakhan/Sweetscape.git

- Designed a responsive dessert-themed website showcasing recipes and blogs.

Portfolio   github.com/aditilakhan/pfolio-aditi.git

- Built a personal portfolio website to showcase projects and skills.
